COMPLIANCE AND QUALITY COMMITMENT

The pictures of the items reproduced in our catalogue are not contractual. We reserve the right to change without notice the product and packaging specifications or colours of any item mentioned in this catalogue.

Quality Commitment

A strong brand reputation is not just about the perfect gift with the right printed message. Continuously improving our products and services is key to meet and exceed our customers' requirements and quality objectives. We operate fully in respect to all applicable laws and regulations. Where feasible, we go even further, by applying recommendations and implementing best industrial practices. We work with a dedicated Quality Control Department both in Europe and Asia and a strict Quality Assurance Policy to guarantee consistent quality of all our processes and products.

Our company participates in the Business Social Compliance Initiative (BSCI). As a BSCI Participant, our company is committed to the values and principles set out in the BSCI Code of Conduct and to meeting, within our sphere of influence, our responsibility to respect human rights. In this regard, it remains fundamental to our company's approach to integrate the BSCI Code of Conduct, when doing business with all our partners regardless of where they source in the world.

Product Certification

Our team works tirelessly to deliver product of the highest quality in a sustainable way and at the most competitive cost. The More Than Gifts products are assessed carefully and comply with EU safety, health and environmental requirements. To ensure all products meet the European qualification criteria, quality assurance tests have been performed and all relevant test reports are available and are not older than 3 years.

Reach

The EU REACH regulation applies in different ways in different product areas. It addresses the production and use of chemical substances and their potential impact on health and the environment. Since standards are subject to constant change we closely follow the latest requirements (Annex XVII). Via our team of specialists we can ensure that there are no restricted substances in the products sold and printing inks used.

EMC and RoHs certification

Technology and gadgets items have helped make our daily life easier and more time efficient. But, whether we use external storage devices, speakers, earbuds, keyboards or any of the many other items available, we need to control the components used to negate the potential damaging effects of electromagnetic interference. In order to ensure our products function correctly and as designed, EMC testing has been implemented. EMC tests the ability of devices to withstand

interference from other electrical or electronic equipment and environments and verify that any emissions cannot cause harmful interference with other electrical or electronic equipment. RoHs (Restriction of Hazardous Substances) tests determine the values of the six restricted RoHS substances (such as Cadmium, Lead and Mercury).

CE marking

CE is an abbreviation for "Conformité Européenne" (European Conformity). In this catalogue you can find a great combination of items for any occasion over the widest range of categories. As part of our compliance procedure all products are classified under the relevant European directives and regulations. However, only for product categories subject to relevant directives or regulations are required (and allowed) to bear CE marking. Mentioned CE marking is a mandatory conformity marking within the European Economic Area (EEA). List of relevant product categories is available on request.

yourChoice

customized gifts

Elevate your customers satisfaction by taking personalization a huge step forward.

Fast delivery

In today's environment faster deliveries are becoming more and more important. Keeping at our factories an appropriate and wide level of materials in stock allows us to reduce our lead times to maintain this competitive advantage.

Small quantities

Creating a product that perfectly suits your customers corporate style is also feasible for lower quantities! By holding inventories at the source we can meet the demand for smaller customization projects at a consistent price whilst safeguarding the correct quality.

Fully compliant

Above all, your gifts should always be safe. We can assure you any YourChoice customized gift will meet all relevant quality requirements. Your gift will be safe, socially compliant and environmentally respectful. Let us worry about compliance standards so you can spend your time on the fun part: creating the perfect gift.

Customize your gift

YourChoice offers you the best-selling product categories with a wide range of items ready to be customized. Throughout the catalogue we highlight some categories but this is just a small introduction of the large available Your Choice program. Consult us for all available programmes.
