Icons

Use our helpful icons to help you choose your perfect product!

BEST SELLER

A proven promotional favourite, offering style and value.

DIGITAL PRINT

Display a full colour message to your product with digital print.

NEW

A brand new product introduced for 2017.

EXTENDED COLOUR RANGE

We've added new colours to several popular products.

ECO-FRIENDLY

An environmentally-friendly product made using recycled or recyclable material.

Your brand is in safe hands

We know that product safety is a priority when ordering promotional products, so we've taken all the steps to ensure this for you.

Responsible manufacturing

We love responsible manufacturing and our manufacturing facility operates a zero-to-landfill policy for its waste production materials. The majority of plastics waste is recycled and reused in house. Any other waste material is used for energy generation programmes in the local area.

ISO9001

Our manufacturing facility is ISO9001 compliant and continually monitors and manages quality across all its operations.

SEDEX

Our manufacturer is committed to ethical trading and demonstrates its conformity to ethical trading standards and accreditations to guarantee peace of mind.

REACH (Registration Evaluation Authorisation and Restriction of Chemicals 2006/1907/EC)

Our manufacturing facility fulfils all the obligations under REACH obligations. Our products do not contain any SVHC (Substances of Very High Concern), listed in the Candidate List with a concentration greater than 0.1% (w/w). We continue to check our suppliers comply with REACH requirements for all raw materials and substances used.

FOOD CONTACT

Our manufacturing facility complies with the following legislation on all food contact materials:

- European Legislation 1935/2004
- European Legislation 10/2011 Plastics
- European Legislation 84/500/EWG Release of Metals

European Legislation 1935/2004 requires that materials do not:

- Release their constituents into food at levels harmful to human health.
- Change food composition, taste and odour in an unacceptable way.

We have access to all master safety data sheets on all raw materials and their suppliers, ensuring products contain no SVHC (Substances of Very High Concern)

All products in this catalogue comply with current essential requirements of the relevant European Health, Safety and Environmental protection legislation.

All products supplied as recycled contain the maximum recycled material content allowable to retain the integrity required for the product and specification. Recycled content is product dependent and we can guarantee that any specific requirement is maintained by careful control and monitoring of the process.

All drinkware items in this catalogue are:

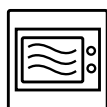

**BPA
free**

Phthalates
free

**Lead/
Cadmium
free**

**REACH
compliant**

**Food
contact
safe**

Useful Information

Printed proofs

Printed proofs are available as pre-production samples. Please contact us for costs and lead times.

Artwork

In order to achieve clear print, we must start with good quality artwork. Our team will assist you with this and if any additional artwork is required, it will be charged at minimum commercial rates.

Product specification

All product details featured in the catalogue are correct at time of going to press, however no responsibility can be taken by the Seller for any product that may be altered or withdrawn by the Manufacturer. E & O.E.

Company logos

Products carrying names or trademarks shown in the catalogue do not necessarily imply that the products have been endorsed by the owner of that trademark, but are designed to be representative of the effect that can be achieved by the creative personalisation of merchandise.

Getting the most from your promotion

We want to make your promotional budget work harder for you, so we offer expert product planning and support. We are experts when it comes to promotional merchandise and will help you to find the perfect items for your campaign and target audience. We can supply printed proofs as pre-production samples. For costs and lead times, please contact our sales team.

Getting your message seen

We offer a wide range of branding methods for you to choose from, which are listed against the relevant products. We also offer a large selection of items with full colour digital print, to help you display full colour images, fine details and gradients at exceptionally high quality. Look out for the 'digital print' icon for products which are suitable for your full colour printed message.

Colour reproduction

Please note that we cannot exactly match Pantone colours on dark coloured items and the shade of the printed colour may vary slightly if printed onto different surfaces.

Exceptional circumstances

The seller reserves the right, by giving notice to the buyer at any time before delivery, to increase the price of the goods to reflect any increase in the cost to the seller which is due to any factor beyond the control of the seller (such as, without limitation, any foreign exchange fluctuation, currency regulation, alteration of duties, significant increases in the costs of labour, materials or other costs of manufacture), any change in delivery dates, quantities or specifications for the goods which is requested to the buyer, or any delay caused by the instructions of the buyer to give the seller adequate information of instructions.

Drinkware

The H2O Active Sports Bottle range offers you a refreshing way to promote your brand.

The diverse range offers you lots of customisation opportunities:

- Choice of shapes and capacities
- Wide colour choice
- Variety of lid styles within mix and match colours
- Stylish accessories to complete your gift

All our bottles are:

- BPA-free
- Food-safe
- Reach compliant
- CE (European Conformity)

Mix and match to design your perfect bottle!

1 Choose your bottle

Ideas Lab

Welcome to the Ideas Lab!

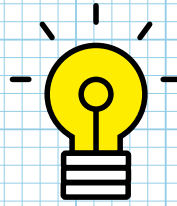

We're here to help you transform your ideas into reality! Creating a custom-made product is easier than you think, and we're with you at each stage of the process with expert advice and ideas.

**PRE-PRODUCTION
SAMPLE**

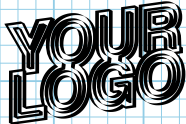

IDEAS GENERATION

1. You've decided you'd like to explore options for a bespoke product – great idea! The first step is to give us a call and get this project moving...

2. A member of our team will chat with you to find out more about your idea, brand, campaign objective, quantity and budget. We'll look at any specific ideas you might have already.

4. With some products, it's a great idea to use relief-moulding to display your logo, as an alternative to print. It gives a great tactile finish.

3. Our expert team will generate ideas on what could be produced for your campaign, considering your budget and the branding options available.

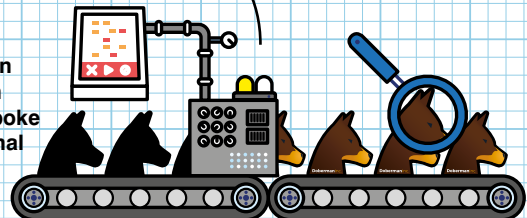

PRODUCT DESIGN

ORDER PRODUCTION

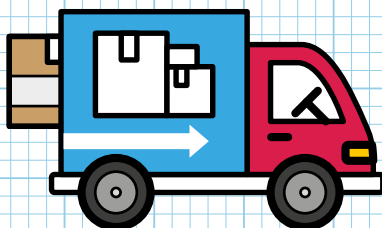

11. The first production samples are made and sent out to you for approval.

12. Full production begins on your bespoke promotional product.

13. We'll add your branding to the products

14. Your final order is carefully packed and despatched to you, ready for the launch of your campaign.

1. THE BOWL MUG

BRIEF

A food manufacturer is running a campaign to offer a free branded product on redemption of proof of purchase. The aim is to send customers a re-usable product that will be used when eating the manufacturer's products, largely soup and pasta meals.

The promotion will ideally launch in 10 weeks – if a product can be ready in time.

The product needs to be food-safe, hardwearing (to withstand postal despatch), and able to carry the brand name to the outer of the product. The customer has mentioned they like the idea of a mug, but in a stylish shape and capacity of at least 500ml.

DESIGN

Inspired by a cappuccino mug, the team design a similar style but with a capacity large enough for the customer's requirements.

THE DETAIL

Technical drawings are produced to follow the approved initial designs.

The mug will be manufactured in food-safe plastic, in the UK, **with a lead time of 6 weeks and a minimum order quantity of 1,000 pieces.**

The customer decides on white as the product colour, and will have their one-colour logo added to the outer of the mug.

PRODUCTION

The tooling is produced, and an initial product sample is sent to the customer for approval.

The full production run is then completed, products are printed, and the final bowls are delivered to the customer ready for their promotion.

RESULT

A large capacity food bowl, in the shape of a stylish coffee mug.

Retail customers are delighted to receive the gift and customer loyalty is increasing.

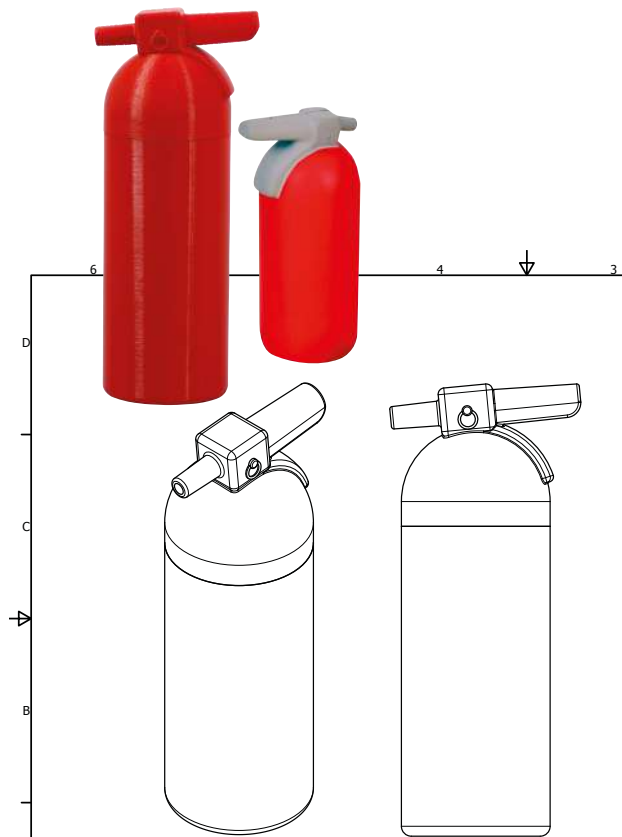

2. THE PENCIL POT

BRIEF

A fire extinguisher supplier wants to increase sales by sending prospects a promotional gift. The gift needs to be a product used on desktops, so that potential customers see the company's contact details whilst at work.

The promotion will ideally launch in 12 weeks – if a product can be ready in time.

The product needs to be hardwearing and able to carry a fire safety message to the outer.

DESIGN

The design team look at various options, such as a shaped ruler, shaped bookmark and shaped coaster. However, the most effective, tactile idea that the team agree on is a two-part pencil pot, in the shape of a fire extinguisher.

THE DETAIL

Technical drawings are produced to follow the approved initial designs.

The pot will be manufactured in hardwearing plastic, in the UK, **with a lead time of 8 weeks and a minimum order quantity of 1,000 pieces.**

The customer decides on red as the standard colour for their product, and their logo and contact details will be printed to the side.

PRODUCTION

The tooling is produced, and an initial product sample is sent to the customer for approval.

The full production run is then completed, products are printed, and the final products are delivered to the customer ready for their promotion.

RESULT

A hardwearing, brightly coloured pencil case with a novel design to help the customer's brand stand out and demand attention.

The pencil pot is well-received by prospective customers, and enquiries increase thanks to contact details and a product reminder being on customers' desktops.

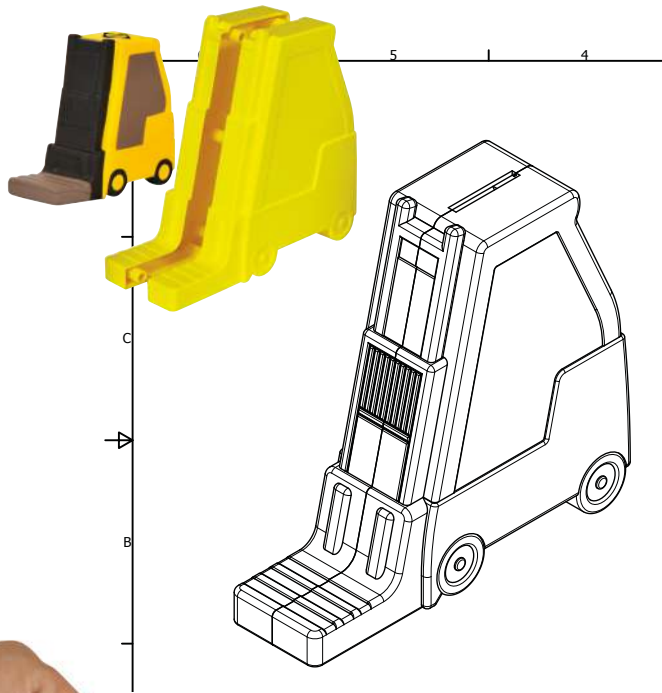

3. THE MONEY BOX

BRIEF

A multi-national plant hire business wants to increase brand awareness and promote their core marketing message of value for money. They would like to send a direct mail pack to the administrators at customers' businesses to encourage loyalty.

The promotion will ideally launch in 10 weeks – if a product can be ready in time.

The company ideally wants a desktop product to maintain brand presence.

DESIGN

Inspired by the idea of saving money, the design team suggest a money box, in the shape of their customer's most popular piece of kit – a forklift truck. The product will have a large print area to each side for communicating the brand message.

THE DETAIL

Technical drawings are produced to follow the approved initial designs.

The mug will be manufactured from hardwearing plastic, in the UK, **with a lead time of 6 weeks and a minimum order quantity of 500 pieces.**

The customer chooses a bright yellow for the product colour, with a bold two colour print to each side.

PRODUCTION

The tooling is produced, and an initial product sample is sent to the customer for approval.

The full production run is then completed, products are printed, and the final products are delivered to the customer ready for their promotion.

RESULT

The campaign is a great success, generating lots of social media activity, which boosts brand awareness further.

Some customers ask for extra money boxes for colleagues and even at home!

Promo

The key to effective promotions!

Our British-made keyrings offer you a low cost, yet highly effective way to promote your business. We have a superb range of keyrings with a choice of sizes, shapes and features to suit your needs. Our clear keyrings are printed to both sides, at no extra cost, for double the brand impact!
